

Convene

- Set “fall forward” tone
- Bring the “right” people to the table (equity principles)
- Follow meeting processes that build collaboration

Generate Useful Reports

- Report OPOC scores (i.e. needs)
- Report QI outcomes from regional partners
- Info must be current and timely
- Must be linked to demographic, contextual data

Review Data Reports

- Discuss needs, gaps, possible interventions
- Set priorities (i.e. balance regional needs vs. agency needs)
- Set benchmarks for action

Develop Plans

- Align agency QI plans with regional priorities and benchmarks
- Identify opportunities for collaboration, especially where action has cross-agency impact
- Share successes and challenges

Support Implementation

- Coordinate sharing of resources, capacity, or expertise to support the implementation of interventions and QI monitoring
- Use implementation science framework to support change
